This cute Easter bunny was stamped with Soft Suede and then I used the Blender Pens to "color" him.

Die-cut the tulips in white cardstock (Tulips Dies) then color the flowers and grass with Stampin' Blends.

Simple stamping, no coloring

The eggs were punched out with the Double Oval punch and embossed with different folders to create patterns on them. You can make the grass with Granny Apple Green cardstock and cut it with scissors. Emboss basket with an embossing folder
