CLUE #2

Add DSP that measures 5 ¼" x 4" to card base with adhesive

CLUE #3

Adhere the 4¼" x 2¼" DSP to the 4½" x 2½" colored cardstock.

CLUE #4

Using Dimensionals, add the DSP/Matt from Clue #3 toward the bottom of the card front. Center it from side to side, approximately ¼" from the bottom edge of the DSP card front.

CLUE #5

Adhere the 2½" x 2½" DSP to the 2¾" x 2¾" colored cardstock. A non-directional DSP works best for this piece.

CLUE #6

Turn the DSP/Matt from Clue #5 so it forms a diamond. Adhere it toward the left side of the card front, overlapping the rectangle layer from Clue #4.

CLUE #7

Turn the 2" x 2" Basic White layer so it forms a diamond and stamp your greeting on it.

CLUE #8

Adhere the stamped Basic White Diamond to colored cardstock that measures 2 ¼" x 2 ¼" with adhesive

CLUE #9

Add your stamped Basic White/Matt layer toward the right side of the card front, overlapping both the DSP diamond and rectangle layers.

CLUE #10

Add embellishments to Diamond-shaped layers on card front

CLUE #11

Take a look at your card. Does it need an image or die-cut shape? If so, use your Basic White and/or colored cardstock scraps to finish your card. Remember—you can always go rogue!
