CLUE #2

Score Colored Cardstock - 5 1/2" X 8 1/2" at 2 1/8" and 4 1/4" with a paper trimmer. Fold the front panel back on the score line to create the Z fold.

CLUE #3

Use Embossing Folder and a die-cutting machine to emboss the Colored Cardstock layer that measures 3 1/2" x 4 3/4"

CLUE #4

Use Liquid Glue to add the Embossed layer to Colored Cardstock layer that measures 3 3/4" x 5"

CLUE #5

Add the embossed mat layer (assembled in Clue #4) to the **folded back panel** of the card front. Apply adhesive **only to the left side of the layer** so the card folds correctly.

CLUE #6

Adhere the Designer Series Paper to the 2 3/4" x 4 1/4" cardstock layer.

CLUE #7

Add the Designer Series Paper layer to the remaining cardstock mat. Then adhere the completed piece to the **center panel** of the card with Dimensionals

CLUE #8

Stamp sentiment with ink on Basic White scrap

Cut to size with Paper Trimmer

Or you may choose to use dies or punches

CLUE #9

Matt the sentiment layer with the colored cardstock layer. Cut mat layer to size or use dies or punches as desired.

Add Sentiment/Matt layers to card front with Dimensionals

CLUE #10

Decorate the Basic White layer that measures 3 $\frac{3}{4}$ " x 5". This is going to be the inside of your card. This could be an image or additional sentiment, so make sure you stamp accordingly.

CLUE #11

Apply adhesive to the back of the Basic White layer. Lay the piece on the left inside panel without pressing it down. Close the card to align it perfectly, then press firmly to adhere.

CLUE #12

If your card needs anything else, such as embellishments, a bow, or anything else, add that now.
