## Clue #2

Cut **1 ½"** off the **right side** of the card base using a paper trimmer.  
This cut piece will measure **1 ½" x 5 ½"**.

Your remaining card base now measures **7" x 5 ½"**, still scored at **4 ¼"**.

## Clue #3

Take the **1 ½" x 5 ½"** piece from Clue #1 and trim it to **4 ½" x 1 ¼"**.  
Score this piece at **4"**.

## Clue #4

With the card base **open**, adhere the **½" tab** of the piece from Clue #2 to the **right side of the card base**, about **1 ½" up from the bottom**.

Line the **score line** of this piece up with the **right edge** of the card base.

## Clue #5

Close the card so the attached flap lies on the **front** of the card.

Adhere the **3 ¾" x 1" DSP** to the flap created in Clue #3.  
We will now refer to this piece as the **belt**.

## Clue #6

Adhere both **2 ½" x 5 ¼" DSP** pieces to:

- the **front left panel**, and
- the **inside left panel** of the card base.

## Clue #7

Adhere the **1 ½" x 5 ¼" DSP** to the **right side** of the **4" x 5 ¼" Basic White or Very Vanilla** piece.

With the belt **open and pulled to the right**, adhere this layer to the **inside center** of the card.

### Clue #8

Adhere the  $\frac{3}{4}$ " x 2  $\frac{1}{2}$ " **DSP** to the 1" x 2  $\frac{3}{4}$ " **Colored Cardstock** piece.

Add **Dimensionals to the top and bottom only**, then adhere this piece to the **front of the card** to create a **belt buckle**.

Slide the belt through the buckle.

### Clue #9

Stamp your greeting on **Basic White or Very Vanilla scrap**.

Trim using dies, punches, a trimmer, or snips.

Decide whether you want to mat the greeting with **Colored Cardstock scrap**, then adhere to the **card front**.

### Clue #10

Does your card need an image or embellishments?

Add those now, if desired.
